

## NECESSARY DOCUMENTS FOR ADMISSION

- Copy of the child's birth certificate
- Health-and-prevention record of the child, filled in by his/her general practitioner
- One-time negative result from a microbiological test of faecal sample
- One-time negative result from a microbiological test for intestinal parasites:
  - Microbiological test of faecal sample for Protozoa and Helminths
  - Perianal mark test, carried out with an adhesive tape, for Enterobius

Microbiological tests should be carried out during the 10 days prior the admission date

- Blood and urine tests, carried out during the 7 days prior the admission date
- Health booklet and immunisation passport, filled by your child's GP
- Medical note from your GP that your child has not been in direct contact with infected people for the last 3 days before the admission date
- Wassermann test (only for admission to nursery) carried out on one of the parents during the 6 months prior the admission date
